Letter of Reference — John Sample, Global Career Fellowship (Business Management)

I am writing in my capacity as Managing Director of Magenta Networks Pte Ltd to provide this reference for John Sample, who completed a Term Fellowship with our organisation from January to May 2026. Magenta Networks is a Singapore-incorporated venture studio established in 2015; our Global Career Fellowship places students on live project work inside our portfolio companies. Fewer than 30% of applicants are accepted and all deliverables must reach a minimum standard of 7/10 before a reference letter is issued.

Programme. John joined the Business Management track and worked asynchronously over five months, approximately 8–10 hours per week alongside full-time studies, within an agentic AI-enabled project environment. Deliverables completed:

Competitor Analysis — EdTech Market (Southeast Asia): John benchmarked twelve edtech companies across Southeast Asia on pricing, features, and distribution channels. Deliverable was a scored comparison matrix and executive summary with positioning recommendations for Eduentry's expansion.

Process Documentation — Student Onboarding Workflow: John mapped the student onboarding process end to end, identifying five friction points with revised workflow steps and time savings. The updated documentation was reviewed and adopted by the operations team without further revision.

Market Entry Brief — Indonesia Expansion: John produced a market entry brief covering regulatory, competitive, and rollout considerations for Eduentry's potential expansion into Indonesia. The brief was reviewed by the Managing Director and incorporated directly into strategic planning.

John demonstrated analytical rigour, clear written communication, and the discipline to work independently to a deadline. All deliverables were submitted on time; outputs were adopted directly into strategic planning. I recommend John without reservation to any admissions committee, scholarship programme, or employer.

Yours sincerely,

Okan Cimen

Managing Director

Magenta Networks Pte Ltd
